# Robert's Mobile Home & RV Resort: A Safe Way to Travel This Summer

ST. PETERSBURG, Fla., May 28, 2020 — Many families across the country find themselves distraught as they're forced to cancel their long-awaited summer travel plans due to coronavirus. But relaxing on picturesque beaches, exploring new cities with families, and visiting historical landmarks is not entirely out of the question this summer thanks to a safe, affordable travel alternative: RVs. In particular, vacationing at Robert's Mobile Home & RV Resort is a great way to explore St. Petersburg, Florida while still practicing social distancing.

As fear of contracting the virus increases, flight and hotel industries are taking a major economic hit. "Only 14% of travelers feel safe taking a domestic flight, and 17% feel safe at a hotel or resort," according to an April survey by MMGY Global for the U.S. Travel Association. As an alternative, Dr. Amesh Adalja, an infectious disease specialist at Johns Hopkins, suggests taking road trips or going camping during these unprecedented times. Many tourists seem to be following this advice, too, by taking advantage of the old-school vibe of RV travel. Daily bookings for RV companies are skyrocketing as people look to RV travel as a solution to their travel needs this summer. These automobiles allow families to sanitarily and pri-

vately escape their home on their own schedule without having to worry about the risk of infection that hotels might present, and these vehicles offer travel flexibility: a huge benefit given the uncertainty about virus outbreaks. What's more, RV travelers don't need to worry about scrambling to find secure spots to park at night: Robert's RV & Mobile Home Park provides a safe and popular location for families to stay during their adventures in Florida.

A family-owned business in a tranquil location, Robert's Mobile Home & RV Resort is renowned for its southern hospitality and proximity to numerous popular Florida attractions. At the park, guests can take a dip in the swimming pool and Jacuzzi, relax in the park's state of the art bathhouse, spend time hitting balls on the tennis courts, or learn to play mini-golf or pickleball, all while making use of modern comforts such as internet access. When in the mood to venture outside of the park, guests will find themselves just minutes away from award-winning Florida beaches like Fort de Soto, St. Pete Beach (named No. 1 beach in the U.S. and No. 5 in the world by TripAdvisor), and Caledesi Island State Park, all of which have recently reopened to the public

with safety measures in place during the pandemic. Advocates of social distancing have emphasized day-trips as one of the safest summer activities: Other

nearby attractions to Roberts Resort which will be open this summer for day-trip adventures include [Walt Disney World](#) (reopens July 11), [Derby Lane, Orlando Studios](#), Kennedy Space Center, and the Florida Aquarium. Guests can also indulge in delicious food from highly rated restaurants on nearby Beach Drive, Ybor City, and Main Street and explore those streets' quaint shops before returning back to Robert's for the night. Traveling in this way will allow guests to enjoy long awaited vacation activities while maintaining what's most sought after during this virus: health and peace of mind.
